DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-22 and 43-64 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Please note that the claims being considered are those filed 09/20/2004 as part of an unentered After Final amendment which was subsequently entered with the filing of an RCE on 01/11/2005.

3. Regarding claims 1, 12, 43, and 54, the second clause of the claim (following the preamble) provides for counting periodic time intervals since transmission of a link integrity indication frame. It is unclear in the claim where in the system this counting takes place, whether at each individual node, only one node, or at a central management station of some type. Although the preamble does state that the method applies to "each node" this does not clearly point out where the accounting is taking place.

4. Claims 2-11, 13-22, 44-53, and 56-64 are rejected because they are dependent on the rejected independent claims.
